

ABOUT THIS WORKSHOP

This workshop will assist foreign companies with their understanding of the compliance responsibilities related to reexports and retransfers of U.S. origin hardware, technology and software received from the United States or from other parties through USG authorizations, and the hiring of U.S. persons.

The workshop will identify key elements for foreign trade compliance programs including when Re-export and Re-transfer authorizations are required under the ITAR and EAR, what license exemptions or license exceptions are available, what are the required protocols for internally or externally managing U.S. export controlled commodities or technical data/technology, when U.S. Export rules do not apply and what records must be maintained.

Who should attend this important workshop? Export compliance managers, program managers, contract and subcontract administrators; and legal personnel

Training conducted via live stream webinar using the ZOOM platform
7:30 AM Eastern to 11:30 AM Eastern
DAY Four ends early

U.S. Export Controls From a Foreign Perspective

Advisors in Export Compliance and Licensing

April 5—8, 2022

Are you a foreign company purchasing ITAR controlled or EAR controlled material (commodities with ECCNs) from U.S. Suppliers?

Do you partner with U.S. companies and exchange technical data and technology?

Do you hire U.S. nationals to work at your company?

If you answered YES, this workshop is for you.

Over 4 days we will review U.S. export controls responsibilities for foreign companies purchasing U.S. origin commodities, receiving technical data or technology from U.S. companies or other parties and companies hiring U.S. persons.

We will review the general principals applicable to the International Traffic in Arms Regulations (ITAR) and the Export Administration Regulations (EAR) and discuss in more detail each set of regulations requirements for foreign companies. We will discuss best practices to aid in achieving compliance and what to do in the event of a violation of the ITAR or EAR.

The program will include a discussion for foreign companies under contract with the USG or subcontract with primes related to DFARS Cyber security obligations.
