

THE AGENDA

The International Traffic in Arms Regulations ("ITAR") provides certain exemptions that allow exporters and brokers to conduct ITAR regulated exports without the need of an ITAR license. This webinar will explore the details of the Foreign Military Sales Exemption, and the common pitfalls.

Topics will include:

- Key ITAR Definitions
- What Is An Exemption?
- FMS Exemption – Broken Down
 - Hardware
 - Technical Data
- FMS Exemption Defense Services – Broken Down
- FMS Related Exemption
- How Does Your Company Comply?
- General Eligibility Requirements
- Common Pitfalls
- What options are there if my FMS contract doesn't qualify?

ABOUT THE PRESENTER

John Herzo, J.D.

Senior Compliance Associate -

Since joining FD Associates in 2000, John has assisted exporters with a variety of licensing, brokering and compliance requirements. John has expertise and experience in various technologies including aircraft, parts and components, night vision equipment, satellite parts and components, ballistic/armored equipment, firearms/ammunition, propulsion systems for missiles and Intelligence Surveillance and Reconnaissance equipment and various weapon systems. ITAR 126.6 FMS EXEMPTION

With the America First policy and the Administrations' push for foreign governments to buy defense equipment from the Defense Industrial Base, Foreign Military Sales (FMS) and Direct Commercial Sales (DCS) transactions are on the rise.

This webinar takes a deep look at the ITAR FMS Exemption.

We will walk participants thru the different elements of the FMS Exemption related to hardware, technical data and defense services activities and review the common pitfalls.

If your company is actively involved in exporting under USG contracts described as FMS contracts it is important to understand your obligations under the ITAR to ensure your companies compliance and that of any subcontractors.
